The conduct of the PGDM in all its aspects, including its admissions, academic, placement, and disciplinary matters shall be the responsibility of a Committee designated as the "PGDM Executive Committee". The PGDM Executive Committee shall consist of the Programme Director, Joint Programme Director & Placement Director. The PGDM Executive Committee may co-opt any other faculty member as and when required. The terms of reference of the PGDM Executive Committee shall include:

(i)   Amendments and additions to provisions of the PGDM Rules and Regulations with the final approval of the Director ;
(ii)   Interpretation of the PGDM Rules and Regulations;
(iii)   Matters relating to academic discipline;
(iv)   Guidelines for evaluating the performance of students;
(v)   Decisions on matters related to unsatisfactory academic performance; and in consultation with Warden and Director, on action regarding misconduct and moral turpitude; and,
(vi)   Any other matter, as may be referred to the Committee by the Director.

The Programme Director shall be responsible for the day-to-day administration of the PGDM.

3.0 Academic Norms

Every student shall fulfill the minimum requirements of each term of the curriculum to be eligible for participating in the next term.   Students not fulfilling the minimum requirements at any term shall be asked to withdraw from the PGDM from that term itself. The minimum requirements of the terms are detailed below.

3.1 Classroom Segment (Terms 1, 2, 3, 4, 5 and 6)

3.1.1 Evaluation

The performance of the students in each course in each term shall be evaluated through quizzes, assignments, exercises, class-participation, presentations, projects, short tests, etc., in addition to a mid-term examination and an end-term examination. The respective instructors will inform the combination of the evaluation components and the weightages thereof. As stated in the detailed course outline, the objective of the evaluation, apart from ensuring that students attain the necessary minimum standards, is also to help the students to improve their performance in the courses. Therefore, the evaluation components shall be arranged so that the students get feedback on their performance at regular intervals.   Every full credit course may have at least three clearly visible evaluation components and two such components of evaluation for every half-credit course. No single component should have a weightage of more than 50% of evaluation.

3.1.2 Grading

The grading system will be based on the five-point scale listed below.

A	Excellent
B	Good
C	Satisfactory
D	Low Pass
F	Fail

Besides, plus (+) and minus (-) signs against A, B, C and D may be added to indicate varying degrees of performance.

All segments of evaluation will be in terms of letter grades only. These letter grades in individual segments will be converted separately into grade points up to two decimal points. The numerical values of letter grades are given below:

A+	4.33	B+	3.33	C+	2.33	D+	1.33	F	0.00
A	4.00	B	3.00	C	2.00	D	1.00		
A-	3.66	B-	2.66	C-	1.66	D-	0.6		

An instructor may award an "Incomplete" (I) grade in a course if a student fails to complete a significant component of the course. In such cases, the concerned course instructor(s) will then specify the additional requirements to be fulfilled by the student to clear the "Incomplete" (I) grade. The concerned course instructor in consultation with the Programme Director will decide the period within which the student has to fulfill the additional requirements to clear the "Incomplete" (I) grade.

To determine the final grade of a student in a course, the following procedure will be followed:

i.   Corresponding to the letter grades and weightages for individual components the value (up to two decimal points) given in the conversion table below:

Grade Conversion Table

	5%	10%	15%	20%	25%	30%	35%	40%	45%	50%	55%	60%

ii. The values so obtained by a student in various components of evaluation in a course will be added. The sum will be divided by 3 and rounded off to two decimal points to obtain the final grade. The total grade points received by a student because of this process will determine her/his final letter grade in the course as below.

Between 3.55 and 4.33	A	Between 0.55 and 1.54	D
Between 2.55 and 3.54	B	0.54 and less	F
Between 1.55 and 2.54	C		

The Programme Director would normally release the grades for an entire term, within 15 days after completion of the term.

3.1.3 Minimum Standards

(i) In each term, a student must obtain a Grade Point Average (GPA)[1] of not less than 2.0; and

(ii) should not obtain "D" grades in more than two courses (in entire programme); and

(iii) should not obtain "F" in more than one course (in entire programme); and

(iv) should have cleared any incomplete (I) grade in any course in a term.

[1] The GPA for each term will be computed by dividing the weighted (weight of "3" is assigned to a full credit course and "1.5" is assigned to a half- credit course) aggregate of the grade points obtained by a student in various courses of a term divided by the total number of course credits in the term.

Clarification: If a student obtains "D" in two courses then she/he should not obtain "F" in any other course. If a student obtains "F" in one course, then she/he should not obtain "D" in any other course. These grade limits are summarised in Table given below:

Term-wise Upper Limits of "D" and "F" Grades

Combination	Number of "D" grades	Number of "F" Grades
1	2	0
2	0	1

If a student fails to fulfill the conditions of minimum standards (specified in Rule 3.1.3 above) at any stage of the programme, she/he will be asked to withdraw from the programme at that term itself.
